

Mechanical Impact gloves cut 4

Product Description

Robust work glove with extra-strong back of hand and finger protection for tasks with higher risk of impact and crushing. With SOFTFLEX coating technology. Perfect all-round protection

Robust, flexible protectors on the back of the hand and around the fingers. Thumb joint reinforcement for an extended service life.

SOFTFLEX technology for comfort and maximum flexibility

Ultra-soft coating made of nitrile foam and water-based PU. Optimal dry and wet grip. Breathable.

Further advantages

Very good skin compatibility due to Oeko-Tex Standard 100. Touchscreen compatible.

Oeko-Tex Standard 100

The OEKO-TEX® STANDARD 100 is a label for textiles tested for harmful substances. Products bearing the STANDARD 100 label have had all their components tested for harmful substances in accordance with the OEKO-TEX® criteria. The test is performed by independent institutes. The label confirms that the product complies with the defined limits for harmful substances.

Applications

Application area

Work involving risk of crushing and impact.

Scaffolding, steel construction and tool manufacturing.

Storage and maintenance work.

Versatile use for various tasks in skilled trades and industry.

Assembly, workshop, mechanic and bodywork tasks.

Freight forwarding, transport and storage tasks.
